

PowerSmart - Solar & Storage System

Info Session

Tuesday, January 16 at 6:30 p.m.

Main Library - Rotary Room

You can own solar PV panels and an energy storage system and take control of your energy use! With solar plus storage, you can generate your own power and have a choice whether to use it or sell it to the grid. Sustainable Fairfield encourages you to attend this presentation to learn about the great incentives and tax credits and general tips on buying and installing solar and/or battery back-up systems. Our presenter for this program is **Bob Wall**, Chairman of Sustainable Fairfield Task Force.

This program will also be available to watch remotely via Zoom.

A link will be provided to all registrants prior to the event.

Presenter: **Bob Wall** is Vice President Solarize for SmartPower, the nation's leading marketing firm focused on energy efficiency and renewable energy. Previously, he worked for non-profits and quasi-governmental agencies where he managed nationally recognized community-based clean energy programs. In addition, Bob has served on various boards and committees including the Connecticut Green Building Council, Greater Bridgeport Community Enterprises, and Sustainable Fairfield Task Force, of which he is the current chair. Bob received a Bachelor of Arts degree from Wesleyan University and a Juris Doctor degree from Fordham University School of Law.
